 L440xH218xW463mm

## Tenderiser 1806

### Benefits

The Tenderiser 1806 is a Heavy Duty gear drive unit designed to tenderise or knit meat or poultry, producing fillet results from cheaper cuts of meat. With 180 micro cuts per square centimetre and a 1/2HP heavy duty motor, the "Tenderiser 1806" is a hard-working, heavy duty machine without an annoying flimsy plastic cover.

### Features

- Gear Drive
- Opening 150mm x 30mm
- Body and Cover in Aluminium
- 180 cuts per square cm
- Safety protection microswitch
- Stainless Steel replaceable blades
